

QUARTERLY ISSUES PROGRAM LIST

WHYY-TV

FOR THE PERIOD OF JANUARY 1, 1999 THROUGH MARCH 31, 1999

The license of station WHYY-TV has determined that the following issues were of importance to the Delaware Valley community during the past three months and has aired the following programs to address these issues:

1. HEALTH

THE ART OF WOMEN'S HEALTH

SUNDAYS/JANUARY 2:00 & 3:00 PM 30 MINUTES DOCUMENTARY

This was a ten part series. Up until 1990, women, by and large, were not included in research studies. Men were considered the "genetic human", and the studies were then altered to fit a smaller, light profile. Even the rats were male. But this "scientific method" did not take into account the true biologic differences between men and women. Since 1990, billions of dollars has gone into studying the effects of disease and treatment in women. This program examines some of the surprising results of that research including: women's susceptibility to some forms of disease; drug therapies thought to be ineffective in men which actually work very well for women; and treatments for men based on women's natural resistance to some disease.

POLIO: A DAY IN THE DEATH OF A DISEASE

2/21/99 7:00 PM 60 MINUTES DOCUMENTARY

Polio will be eradicated within the next three years, largely due to the efforts of a USA based organization called Rotary International. Here, the unexpected and heartwarming story of man's humanity toward his fellow man, and the science that's making it possible.
